Time Limit:	10	Minutes

$$\lim_{h \to 0} \frac{\frac{1}{(2+h)^2} - \frac{1}{4}}{h}$$

- 2. From the following graph of the function f, calculate the following limits:
 - (a) (1 point) $\lim_{x\to 2^-} f(x)$
 - (b) (2 points) $\lim_{x\to 0} f(x)$. Make sure to explain your reasoning here.
